Automated Carts  
for  
Roanoke County

### **ADDENDUM NO. 3**

#### **Answers to Questions**

Due Date & Time:  
**October 26, 2018 2:00PM**  
**(Local Prevailing Time)**

## IFB #2019-050

### Automated Carts

1. Page 9 indicates that the County reserves the right to require a performance and/or labor and material payment bond. Since that requirement means material addition to cart pricing, would the County please indicate whether it actually will require the bonding?

Answer: No, it will not be required.

2. Page 4, Item 3. f) requires a minimum rated load capacity of 300 pounds. The 64 gallon cart has a load rating of 224 pounds to comply with ANSI Z245.30-2008 which requires carts to have a 3.5 pounds per gallon load rating. Please confirm that the ANSI load rating requirements are suitable to the County for the smaller 64/65 gallon carts.

Answer: Yes

3. Page 5, 3. m) and Addendum 1 requires a 1" minimum height for serial number characters. Our serial numbers can have 3 pre-characters, with each pre-character being able to be 2 stacked characters to encode month and year of manufacture, cart use, etc. Those stacked characters are 11/16" high, and are then followed by the 6 sequential numbers without duplicate numbers. Please confirm that this serial number design is acceptable to the County.

Answer: Yes
