

Hollins Area Transportation Projects

Below is a list of current transportation projects with construction underway or expected over the next few years:

1. **Plantation Road Bicycle, Pedestrian and Streetscape Improvement Project, Phase 1**
(constructed 2017-2018)
A pedestrian and bicycle shared use path was constructed on the west side of Plantation Road from Williamson Road to Walrond Drive. Street trees, curb, gutter, and storm drains are also part of this project.
2. **Lila Drive Turnaround** (constructed 2018)
A turnaround was constructed at the end of Lila Drive and the road was accepted into the VDOT Secondary Road System.
3. **Lila Drive Intersection Safety Improvements** (construction 2020)
A traffic signal will be installed at the intersection of Plantation Road and Lila Drive which will include pedestrian signals and crosswalks to connect to a shared use path along Plantation Road. Approximately 420 feet of Lila Drive will be reconstructed in order to relocate the Harris Corporation entrance from Plantation Road to Lila Drive.
4. **Williamson Road/Peters Creek Road Pedestrian Improvements** (construction 2021)
Bicycle and pedestrian safety improvements will be constructed along the west side of Williamson Road from Peters Creek Road to the south along Williamson Road. Pedestrian signals and crosswalks will be installed at the intersection of Peters Creek Road and Williamson Road.
5. **Plantation Road Bicycle, Pedestrian and Streetscape Improvement Project, Phase 2**
(construction 2021)
Sidewalk, curb, gutter and drainage systems will be constructed between Walrond Drive and Gander Way, on the west side of Plantation Road. Pedestrian signals and continental crosswalks will be added to the Gander Way/Friendship Lane traffic signal. The Walrond Drive/Plantation Road intersection will be widened and realigned to provide a turn lane and improve sight distance for drivers turning out of Walrond Drive. Street trees will be planted along the project.
6. **Williamson Road Pedestrian Improvements**
Sidewalk will be constructed on the north side of Williamson Road, between Peters Creek Road and Plantation Road. This project will connect between planned improvements at the Peters Creek Road intersection and existing improvements at the Plantation Road intersection. Additional funding has been requested for this project.
