Connect to Care

What is a Virtual Medical Care Visit?

Your health is important to us – we are here to support you in staying well. Virtual care is a private and secure way to meet with your Marathon Health provider through video and/or phone. Accessible on your mobile phone, tablet, or computer, **you can access healthcare wherever you are through the Marathon eHealth Portal or the Marathon Health app.**

Take Care of Your Health

Schedule a virtual appointment online via the [Marathon Health app](#) or the [Marathon eHealth Portal](#). Log in and schedule an appointment by selecting 'Virtual' as your appointment location. Choose the service you'd like under 'Appointment Type.' Select your provider and appointment time and click 'Schedule.' Confirm the state you are located in and availability.

If your desired virtual appointment is not available, call the Marathon Health & Wellness Center South at 540-777-6355 to schedule.

Connect, Virtually

When joining from a mobile device, please download the Zoom app before your first appointment. You do not need to create an account. Marathon Health uses a HIPAA-compliant technology based on the Zoom platform for its
