VoterView Web Mapping Application

Roanoke County, VA

Program Year: 2019

Abstract:

Roanoke County, Virginia's VoterView application is a customized solution that addresses the County's need to empower their citizens to locate their election polling place and obtain information about current elected officials. The VoterView app was created from the ground up with accessibility in mind, and an emphasis was placed on integrating the latest technologies to ensure mobile compatibility and the use of location services. The VoterView app offers government transparency to its citizens, by including contact info, polling place information and detailed voter information in an easy-to-use and mobile solution. Citizens and staff are no longer tied to desktop computers, as the VoterView app can be used on a variety of mobile devices, from any location. This increased ease-of-use helps streamline the day-to-day operation of staff while giving citizens access to County data whenever, and wherever, they choose. Please click on the following link to launch the VoterView application <https://voterview.roanokecountyva.gov> .
