**December 27, 2022 2:00PM  
(Local Prevailing Time)**

**Addendum No. 1  
RFP 2023-052  
SCBA Compressor Maintenance**

1. I am concerned about your special request on page 12. Vendors should provide documentation with the bid that they are certified by Bauer to perform work on Bauer equipment, and should be able to provide approved warranty service work as well. You also possess a Stallion and Eagle brand compressor which you are requesting the same services. As President and owner of Stallion Air Inc. I can inform you that there are no Bauer distributor in your area that possess a Stallion Air or Eagle Air Certification. Our company services hundreds of compressors, of all brands, in VA, NC, SC, TN, and other states, on a daily basis. I have personally attended Bauer and Eagle factory training in my long career in the breathing air industry and I can tell you there is not much to be learned in these 2 day classes that you attend every 3-5 years. Please enlighten me on how it is necessary to be Bauer CERTIFIED but not carry any credentials for the other brands?  
Answer: Bauer's lifetime warranty requires service by a Bauer-Certified technician.
