**GIS Team Receives Award From the Virginia Association of Counties**

(ROANOKE COUNTY, VA – August 29, 2024) Roanoke County's GIS Team has been recognized by the Virginia Association of Counties with the 2024 Achievement Award for its Town of Vinton Stormwater Outfall Management Application.

The GIS-enabled application allows the Town of Vinton's staff to gather and submit necessary stormwater data directly from the field and automatically upload this information directly to the Town's stormwater management system.

This collaborative effort between Roanoke County's GIS staff and the Town of Vinton makes collecting mandated stormwater management data more efficient and more accurate, helping the Town to maintain compliance with state stormwater requirements.
